- Practically non-irritating to eyes

Simplified Cleaning Process. Replace multiple multi-colored chemical concentrates with a simple OSG unit.

Improved Health and Safety. Reduce employee, customer and cleaning team exposure to highly concentrated conventional chemicals.

Reduced Environmental Footprint. Lifecycle assessments conducted by independent experts indicate that OSG solutions result in a dramatically reduced environmental footprint compared to conventional packaged chemicals.

Lower Cost to Clean. In addition to the potential for lower chemical costs, OSG can reduce soft costs, such as training, ordering and managing of inventory.
