# ReVue™ Hydro Polishing

ACHIEVE YOUR SHINE IN HALF THE TIME

- Full line of hydro polishing liquids and diamond tooling
- Significantly cut labor costs and downtime with innovative formulas
- Silica-based technology creates beautiful finish with brilliant clarity
- Reduces silica dust and aids compliance in OSHA regulations
- Easy clean up and disposal with our cutting-edge slurry solidifying product

## TENNANT COATINGS OFFERS ReVue™ Hydro POLISHING LINE

### ONE-STOP SHOP FOR ALL OF YOUR FACILITY FLOORING NEEDS

Tennant is known for outstanding quality, reliability and innovation. We are the only company that offers a complete range of solutions for coating, cleaning and maintaining floors. With the introduction of the ReVue™ Hydro Polishing Line, we are excited to specialize in all of your floor care needs:

- Polished Concrete That Lasts
- High Performance Epoxy and Urethane Floor Coatings
- World Renowned Floor Cleaning Equipment

### ReVue™ Hydro POLISHING LINE

The ReVue Hydro Polishing Line incorporates innovative polishing liquids and a full line of diamond tooling, to create a beautiful polished floor in as few as three steps. It's nanochemistry helps create a lasting finish, while virtually eliminating dust and debris created through standard dry polishing processes.

### WHAT WILL YOU NEED TO SUCCESSFULLY HYDRO POLISH YOUR CONCRETE?

- ReVue™ Liquids
- ReVue™ Diamond Tooling
- Award winning Tennant Auto Scrubber
- Rotating Head Floor Grinding Equipment

## POLISH ANEW WITH TENNANT'S ReVue™ ReVue™ Hydro POLISHING LIQUIDS

### ReVue™-HydroCut:

- Concrete cutting product
- Enables quick, efficient concrete removal on first step
- Achieve immediate, concrete refinement
- Helps reduce labor and overall project costs

### ReVue™-HydroDense:

- Concrete densifying product
- Colloidal silica chemistry allows for deep concrete penetration
- Densification from within to form long-lasting result
- Effectively closes microscopic concrete capillaries, helping create an abrasion resistant substrate that reduces concrete dusting

### ReVue™-HydroGard:

- Concrete sealing product
- Provides densifying characteristics
- High gloss finish
- Helps protect surface from scratching, scuffing and staining

## ReVue™ Hydro POLISHING DIAMOND TOOLING

ReVue™-SP  
Sintered Press Metal Tool

ReVue™-HYB  
Hybrid Semi-Metal Tools

ReVue™-PHN  
Phenolic Tools

### ReVue™-SP: SINTERED PRESS METAL TOOLS

ReVue-SP is a sintered press metal, diamond polishing tool that is used for heavy work on rough floors. These tools are typically used during the first grinding step of the ReVue™ Hydro polishing process.

### ReVue™-HYB: HYBRID SEMI-METAL TOOLS

ReVue-HYB is a Hybrid Semi-Metal Bonded Tool with high diamond concentration to make quick work of tough jobs while producing consistent results. These tools are typically used during the secondary grinding step for further refinement of the concrete.

### ReVue™-PHN: PHENOLIC TOOLS

ReVue™-PHN is used during the dry polishing phase after all wet grinding and concrete removal phases are complete. These industrial grade tools use phenolic resin bonds to provide excellent clarity with minimal resin transfer to the concrete, resulting in impressively high DOI (Distinctness of Image) readings.

# YOUR FLOOR CAN SHINE WITH YOUR CHOICE OF GRIND CHOOSE FROM TENNANT'S THREE POLISHING PROCESSES

## Cream Polish:

- Attractive smooth uniform appearance
- Little to no exposed aggregate or fine cement particles
- Achieved by removing very little of the concrete cream surface

Gloss Level: 80  
DOI (Distinctness of Image) Reading: 97  
RA (Roughness Average) Reading: 3 units or below

## Salt N' Pepper Polish:

- Removes maximum  $\frac{1}{16}$ " of concrete cream surface
- Creates beautiful exposed aggregate appearance
- Look of natural stone

Gloss Level: 60  
DOI (Distinctness of Image) Reading: 90  
RA (Roughness Average) Reading: 7 units or below

## Large Aggregate Exposure Polish:

- Removes maximum  $\frac{1}{4}$ " of concrete surface with aggressive grinding
- Granite look achieved by exposing the coarse aggregate of the concrete substrate
- Provides similar aesthetics to terrazzo flooring at only a fraction of the cost

Gloss Level: 60  
DOI (Distinctness of Image) Reading: 90  
RA (Roughness Average) Reading: Less than 20

## ReVue™-HydroRock

### What is ReVue-HydroRock?

- A slurry solidifying product that allows for easy cleanup of the slurry material produced during the wet polishing process
- Fast-acting formula allows installers to maximize productivity
- Excellent absorbency and retention properties results in safe, non-hazardous disposable material

### How does it work?

- Pick up slurry using one of our very own Tennant Auto Scrubbers
- Empty slurry from recovery tank into container of choice
- Add two to three ounces of ReVue-HydroRock per gallon of slurry to create solid, disposable material
- Continue with next polishing steps while ReVue-HydroRock works its magic
- Easy disposal within 30 minutes

## CHOOSE TENNANT FOR YOUR FLOOR CARE NEEDS

Tennant offers the flooring industry's most complete and integrated floor care solutions to help you create a cleaner, safer environment for employees, guests, and customers. Reliable Tennant scrubbers include compact battery, walk-behind and rider models.

## FINANCE SOLUTIONS

Tennant has flexible options that get you the machines you need, however you need them.

- **LEASE:** Make budgeting easier by utilizing our financial partners to lease your Tennant equipment.
- **PRE-OWNED:** Get quality machines at a budget-friendly price. All Tennant pre-owned machines are refurbished and equipped with genuine TennantTrue parts, so you can ensure you're getting top value for your investment.
- **RENTAL:** Get the job completed on-time and within budget by renting Tennant equipment.
