

ReVue™-TSR

Ten Segment Metal Bonded Diamond Tools

DESCRIPTION: ReVue-TSR are ten segment, metal bonded diamond tools. These tools provide immediate refinement on poor concrete, producing consistent heavy Salt N' Pepper results.

USES: These tools are typically used in the first grinding step of Tennant's ReVue™ Hydro Polishing Process, in order to achieve a heavy Salt N' Pepper finish.

ADVANTAGES:

- Metal Bonded Tool
- Consistent Results
- Immediate Refinement
